

Future Leaders Week

Every 3rd week in October

Future Leaders Week is a simple way for BNI professionals to offer young people aged 15-18 years career orientation advice within their local community.

Every 3rd week of October we invite BNI Chapters to engage with a local school to showcase how business owners can network and collaborate to help each other become more successful.

Ideally the Weekly Meeting takes place in a school, followed by the career orientation sessions offered by selected BNI members.

If the chosen school is unable to accommodate a full Chapter Meeting, there are two other options for participating:

1. The career orientation takes place at a mutually convenient time in the school.
2. The career orientation can take place at any other local young people's club.

How it works?

- Get excited!
- Tell your Leadership Team about it!
- Leadership Team & Chapter decide to join/ participate.
- Register here:

<https://futureleadersweek.com>

to receive detailed information on how to make it a successful event.

- Chapter reaches out to a local school/young people's club – wording suggestions are provided in the information package.
- Weekly Chapter Meeting and/or Career orientation sessions held in the school/club during FLW.
- Leadership Team submit number of members and students attending, photos & videos.

Business Voices is the pillar of the BNI Foundation, which focuses on how BNI Members, Directors, and Chapters can use their time, talent, knowledge, and experience to help children in the communities in which they live and work.
